

Identifying our people

Our people are professionals and whilst working will always adhere to the standards and values that represent our business.

When visiting your home they will be dressed in our branded uniform and appropriate Personal Protective Equipment (PPE).

They will wear a clearly visible ID badge which identifies them as part of the Aaron Services team. It shows their name and photo, company name, office telephone number for verification purposes, along with an expiry date. This will always be shown to you at the introduction stage.

Our people use a fleet of branded vehicles, which are distinct and recognisable and show our business name on the sides and back.
